

INFRARED AND RAMAN DISCUSSION GROUP.

The 104th meeting will be held on the ICI site at Runcorn, Cheshire,  
on Tuesday, 25th October, 1983.

Programme.

- 10.30-11.00 Coffee.
- 11.00-11.30 M.P. Dare-Edwards (Shell Research, Thornton). "The Application of Raman Spectroscopy to the Study of Fluids under the Conditions of Elastohydrodynamic Lubrication".
- 11.35-12.05 R. Whyman (ICI, Runcorn). "FTIR of Catalysts at High Temperatures/Pressures".
- 12.05-12.30 I. Clarke (Unilever Research, Port Sunlight). "An Interpretive Aid for Infrared Spectra (of Detergents)".

Lunch.

- 2.10-2.50 A. Creighton (University of Kent). "Surface enhanced Raman Scattering from Metal Particles and Electrode Surfaces".
- 2.55-3.25 G. Dent (ICI Organics Div., Manchester). "Searching of Spectra Using a Remote PE Data Station".
- 3.30-3.50 I. Steer (Pye Unicam). "The Spectrophotometer and the Computer; How Should they Communicate?"

Buffet lunch, with wine, will be provided at a cost of £9.00 inclusive of the meeting cost. A reduced rate of £5.50 is available to students.
