

### INFRARED AND RAMAN DISCUSSION GROUP

The 109th meeting of the IRDG is to be held at the BP Research Centre, Sunbury on Wednesday 24th October 1984. Limited on-site catering is available and will be allocated, strictly on the basis of 'first come first served'. Attendance, coffee and lunch will cost £8.50; bona fide students attendance free, lunch £5. Where accommodation for lunch is unavailable attendance fee plus coffee will be £2.50.

An instrument exhibition will be held which will include the new PE 1700.

#### Programme

10.45	W.F. Maddams (B.P.)	'Curve Fitting and Peak Finding: An Overview'
11.30	Miss H.J. Bowley (B.P.)	'The Resonance Raman Spectrum of $(-CH)_x$ ' <sup>7</sup>
12.05	P.J. Hendra (Southampton)	To be announced.
14.00	M. Ford (PE)	'The model 1700 Fourier Transform Spectrometer'
14.40	A.J. Rowe (Buck Scientific)	'Microsampling using microscopic technique in F.T.I.R.'
15.10	P. Turner (Bruker)	To be announced.
15.30	B.C. Beadle (Biorad)	'Micro F.T.I.R. Spectroscopy'
15.50		(Specac) To be announced.
